DETAILED ACTION

This action is in response to Request for Continued Examination and Amendment filed March 21, 2006. Claims 1, 2 and 4-10 have been amended.

Response to Arguments

Applicant's arguments, see Amendment, filed March 21, 2006, with respect to claim 1 have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn. Applicant amended the claim language to overcome the prior art of record.

Allowable Subject Matter

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record fails to teach or suggest a diagonal comprising a housing, an eyepiece adapter unit, a reflective mirror unit, the housing having a cylindrical sleeve for mounting the diagonal to a telescope, the eyepiece adapter unit including an eyepiece adapter and a pivotal eyepiece support frame, the support frame is pivotally mounted on the housing body, the eyepiece adapter is fixed on the eyepiece support frame so that the eyepiece adapter pivots, along with the eyepiece support frame relative to the housing body, thereby

capable of changing the view angles by rotating the eyepiece adapter between two different positions and the reflective mirror unit includes a reflective mirror a support bracket and rotary shafts and is mounted in the support bracket which is pivotally mounted on the eyepiece support frame through the rotary shafts.

The remaining claims depend from claim 1 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
